

Upgrade your Protection

Tamper Resistant Protection

MUL-T-LOCK Products exceed many United States and international qualifications against physical attack. All MUL-T-LOCK products are designed for pick and tamper resistance. Hardened steel inserts are strategically placed in sensitive areas to resist against drilling attempts, and MUL-T-LOCK's advanced design of telescopic pins will resist against the most determined attempts at picking.

Interactive Patented Key Control

MUL-T-LOCK's unique patented Interactive Key Control System gives the user the confidence they need to know that they are the only ones who can obtain additional keys. Protected by MUL-T-LOCK's "Key Order Card", which is signed by the user to prevent unauthorized key duplication. Authorized MUL-T-LOCK Dealers must verify the signature on the "Key Order Card" with the signature on a photo identification of the user. Only Authorized MUL-T-LOCK Dealers can service MUL-T-LOCK Interactive Key Control Systems.

MUL-T-LOCK

An established worldwide leader in developing, manufacturing, and marketing of High Security Key Control Products for institutional, commercial, industrial, and residential applications.

MUL-T-LOCK Products are marketed via a global distribution network, in more than 100 countries and over 20,000 service centers, equipped to provide service to over 100,000,000 users.

Over 80% of Residential Break-Ins Happen Through The Front Door.

Don't Be Another Statistic.

MUL-T-LOCK

High Quality, High Security Products

Are You At Risk?

Can your locks be drilled?

Most locks are made with inferior materials, which can be drilled, pried, and tampered with using minimal efforts, to force open your door, allowing a thief to gain access to your home.

Can your locks be picked?

Most cylinders are not made to resist picking. With specialized pick sets readily available through mail order catalogs, and the internet, just about anyone can get specialized tools to pick open almost any lock cylinder.

Can your keys be duplicated?

Over 90% of the keys available in the market today are not protected by a United States Utility Patent. When a key is not patent protected there is almost nothing that a manufacturer or the law can do about unauthorized keys and key blanks being made or manufactured. This means that you are at risk each time your keys are accessible to anyone.

One Key, Endless Possibilities

MUL-T-LOCK products can adapt to almost any application, fitting almost any security requirement.

Hercular

Hercular Deadbolt

Exceeding ANSI Grade 1 Standards, the MUL-T-LOCK Hercular Deadbolt will stop almost any attempt at forced entry. Flexible in design the Hercular is made with an adjustable backset.

Top Guard & Jimmy Proof

The MUL-T-LOCK Top Guard is manufactured with hardened steel which will resist almost any attempt at forced entry. Combined with MUL-T-LOCK's Jimmy-Proof lock will give any door the perfect security combination.

Retrofit Cylinders

MUL-T-LOCK's line of retrofit cylinders are designed to fit into almost any existing lockset. These cylinders will upgrade almost any existing lockset with High Security Key Control without the expense of replacing hardware.

Mortise Locks

MUL-T-LOCK manufactures a wide variety of Mortise Locks. Through bored or surface mounted trim and protected by a MUL-T-LOCK High Security Cylinder will give the user strong protection, and a beautiful appearance.

Padlocks

MUL-T-LOCK Padlocks set new standards in the broad market of Padlock Security. These Padlocks are made of Hardened Steel, and Boron Alloy to resist Bolt Cutting and Sawing. Many types of Padlocks to accommodate any security requirement.

Adonis Locksets

Available in ANSI Grade 1, or Grade 2, MUL-T-LOCK's line of cylindrical locksets are easy to install and will provide maximum protection. Knob or ADA (American Disabilities Act) approved Lever Locks available.

Lock For Life

Lifetime Mechanical Warranty

As an ISO9001 Quality Assured Firm, MUL-T-LOCK Technologies understands the importance of quality and reliability. Made with the best material, and by a highly trained professional staff all MUL-T-LOCK products are backed by a lifetime warranty.

Lifetime Anti-Tarnish Finish

MUL-T-LOCK offers a Lifetime Anti-Tarnish Finish on some of its products. This finish will resist corrosive elements from the environment, that can tarnish other locking products. Check with your Authorized Dealer for availability.
